

SAFE SLEEP POLICY

In order to comply with North Carolina regulatory requirements, Kidz Are Fun CDC has established the following “Safe Sleep Policy” requirements.

1. **“All Infants Must Be Placed On Their Backs To Sleep.”** If the child is six months old and younger, a written wavier from a health care provider stating another sleep position is allowed.
2. All Cribs will only have a **Mattress, Sheet and a Light blanket** to accommodate your child’s sleeping comfort. If a child requires a certain item to assure consistent sleep and is older than six months, the child’s parent/guardian may make a specific written request to have that sleep aid included in the crib during sleep time.
3. **All Sleeping Infants Will Be Visually Checked By Caregiver** every fifteen minutes minimum. This data will be charted and placed on bulletin board in infant room.
